# ODOO OPEN SOURCE ERP | NO MORE PAINFUL INTEGRATIONS

A Unique Value Proposition

ODOO is the world's most customizable, reliable and advanced Open source ERP solution. The open source model of ODOO has allowed thousands of developers and business experts to build hundreds of apps in just a few years. With strong technical foundations, ODOO's framework is unique. It provides top notch usability that scales across all apps.

ODOO is a comprehensive suite of business applications including CRM, Sales, Order Management, Accounting, Finances, Purchase, Warehouse Management, Production, Human Resources, Payroll Accounting, Project Management, Business Intelligence, CMS, E-Commerce and several other modules that are available for integration.

Usability improvements made on ODOO will automatically apply to all of our fully integrated apps. That way, ODOO evolves much faster than any other solution.

ODOO has an advanced architecture which makes it the best fit for SME's.

ODOO ERP is the all-in-one management software that is beautiful and easy-to-use giving you everything you need to grow your business within a top notch user experience.
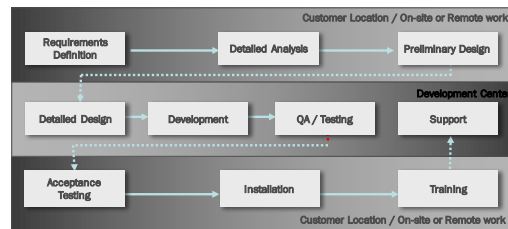

2 MILLION USERS GROW THEIR BUSINESS WITH ODOO

Why Choose ODOO and Nybble Group?

- ODOO is smart, beautiful and easy to use. With a modern web client design and its rich application interface each user will find his preferred way of using ODOO
- Due to its extreme flexibility and simplicity, ODOO is the fastest ERP to implement in the market. This will guarantee fast customers integration cycle
- ODOO's unique modular approach allows users to begin with one application and expand as their business grows, while enjoying the benefits of integrated software. With over 3000 open source modules, ODOO has the biggest funcional modules covering the market, from vertical adaptations to horizontal extra features
- In ODOO all migrations and upgrades are fully automated. With the module system you can install new features on a running environment without any risks of disrupting normal operation
- The absence of costs for licenses makes ODOO really affordable. The complete set of services provide great value for clients

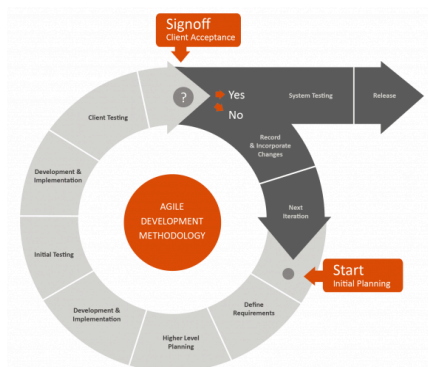

Nybble Group Advantage and Value Proposition

We understand the importance of speeding delivery without sacrificing quality, and we've implemented tools and processes that let us do both. We develop a distributed delivery process that lets us achieve more rapid technical design and faster speed-to-market.

- Nybble Group has been successfully providing near-shore remote services for more than 10 years to different companies in LATAM, the US and Canada. We know this model very well
- The Delivery Teams are located in Argentina, but we have an US-based company. We know how to leverage the advantages of being on almost the same time zone which enables excellent communication
- On top of the absence of costs for licenses that makes ODOO really affordable, Nybble Group's distributed delivery process ensures our clients the best value for their investment

Proven ODOO Expertise:

- We have successfully implemented more than 50+ ODOO projects on several verticals : healthcare, manufacturing, retail, construction, insurance and many more
- Well trained and knowledgeable functional and technical consultants, with experts in complex customizations and integrations
- We offer specialized solutions as per client's specific requirements
- Specialized team in ETL which brings down the migration costs
